

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (currently amended) A magnetically passive position sensor with a movable magnet, with a multiplicity of contact spring elements arranged in the range of movement of the magnet, the contact spring elements lying opposite a resistance device and being able to be moved by the magnet against the resistance device, the resistance device having a number of individual electrical contacts, lying opposite the contact spring elements, ~~characterized in that~~ wherein an individual contact ~~(7)~~ of the resistance device ~~(4)~~ is assigned at least two tongues ~~(10, 11)~~ of the contact spring elements ~~(5, 6)~~.

2. (currently amended) The magnetically passive position sensor as claimed in claim 1, ~~characterized in that~~ wherein the tongues ~~(10, 11)~~ are each formed as an individual contact spring element ~~(5, 6)~~.
